HIATT PRINTING

C654
Printing using PageScope Mobile

Available on the App Store

Available on the Google play Store

1. Connect your smart device to the hiatt Wi-Fi Network.

2. Download PageScope Mobile App from Apple App Store for your iPhone/iPad or Google Play for your Android device. Search for PageScope Mobile under each of the stores. You can also choose to get the Android APK from www.hiattprinting.com for your Android devices.

   a. On the left hand side of the page click **Printing Tools**. Look for this icon.

3. Once the app is installed, click Select Printer on the bottom of the page.

4. Choose **Auto** to automatically find the KONICA MINOLTA bizhub C654. Proceed to step 8.

   a. If it does not find the printer, proceed to step 5.

5. Push **Select Printer** to add a printer.

6. Select **Manual** to input an IP Address.

7. Type in **192.168.1.100** and select Search.

8. Once it has found the Konica Minolta copier select the **Add** button and your printer has been added to your smart device.

9. Enter the Account Track Department Name: *hiatt* and Password: *hiatt.*

10. At this point you are able to print ONLY through this application to the Konica Minolta copier.
